### ***States of Oregon and Washington Departments of Transportation Notice to Consultants***

#### ***Columbia River Crossing Project - Environmental Impact Statement***

The Washington State Department of Transportation (WSDOT) solicits interest from consulting firms who would like to be evaluated for providing environmental and design services to work collaboratively with the WSDOT and Oregon Department of Transportation (ODOT) Project Team to deliver the environmental phase of the Columbia River Crossing Project. This project is expected to enter the EIS phase (or other required environmental documentation, if an EIS is not required) by Spring/Summer 2005. One (1) agreement will be awarded. The WSDOT/ODOT Project Team anticipates the total cost of the environmental phase to be in excess of \$20 million, with an initial agreement to be in excess of \$6 million, but the total dollar figure will vary upon project requirements and funding. The agreement will be for the duration of the I-5 Columbia River Crossing Project. An effective WSDOT/ODOT and consultant project team will be crucial to successful, on-time, and on-budget project delivery.
